R.M. Hunt facade - 5th Avenue

Credit: Metropolitan Museum

Wing D, the Fifth Avenue facade of The Metropolitan Museum of Art, built in 1902 and designed by William Morris Hunt. Hunt's design proved somewhat too grand, at least in its sculptural ornament, and when it was built the groups intended to surmount its main pillars, were left rough blocks.

1836

The foreground showing the old Park Entrance of the Metropolitan Museum of Art, is Wing B, designed by Theodore Weston and constructed in 1888. Behind it, to the right, can be seen Wing A (central core, designed by Calvert Vaux, completed 1880) and behind it, can lastly be seen, in the rear, Wing C - designed by Arthur Tuckerman and built in 1894.
